WESTERN GOVERNORS PLAN EASTERN TOUR

Leads of Western States Will Attend National Harbor and River Congress in Washington—Politics Will Be Barred—Have a Special Train

(Special to The Capital.)
St. Paul, Minn., Nov. 25.—The preparations for the tour of the East by the party of eleven governors of western and northwestern states, scheduled to start from here next Monday, are practically completed. The "Governors Special" train has been "made up" and fully equipped and stands ready to start on its long journey when the signal for departure is given. The train is quite long and carries several sleeping cars, enough to accommodate the governors and the members of their respective parties, dining cars, several baggage cars, five cars containing well arranged exhibits of the agriculture, horticulture, and mineral resources of the western states represented by their executives in the party.

The governors included in the party will be A. L. Eberhart of Minnesota, John Shafroth of Colorado, Joseph E. Carey of Wyoming, John Burke of North Dakota, James Havelly of Idaho, Edwin Norris of Montana, and Governor T. A. C. of Washington, Oswald West of Oregon, and Governor Odell of Nevada and H. W. Johnson of California. The governors will be accompanied by their secretaries and members of their staffs. The party will be in charge of former Governor James H. Brady of Idaho, with whom idea of the trip originated, and Riley Atkinson, secretary of the Chamber of Commerce of Boise, Idaho.

Will Cost \$75,000.

The tour of the western governors, the total cost of which will be about \$75,000, will extend over a period of twenty-one days during which time twenty-one cities will be visited. The train will start from here on Monday evening and will make the following stops: Nov. 28, Chicago; Nov. 29, Kansas and Grand Rapids; Nov. 30, Detroit and Toledo; Dec. 1, Cleveland; Dec. 2, Buffalo; Dec. 3, Rochester; Dec. 5, Syracuse and Utica; Dec. 6, Albany; Dec. 7, Washington; Dec. 8, Baltimore; Dec. 9, Philadelphia; Dec. 11, New York; Dec. 12, Harrisburg; Dec. 13, Pittsburgh; Dec. 14, Columbus; Dec. 15, Indianapolis; Dec. 16, St. Louis; Dec. 18, St. Paul.

At all cities where the "Governor" will be followed as closely as the nature of the ground will permit. Between the tracks and the river the plan will be indicated by a low line as indicated owing to the fact that the ground is low and unsuitable for the construction of a high provision will have to be made for the business lots in the townsite will be made 66 by 99 feet in size. The business lots will be laid out 25 feet in width by 150 feet in length.

A thoroughly efficient gravity water supply system is assured the town of Pittsburgh will be supplied with water ready for operation by the time the townsite is laid out. A dam has been planned to be built at a distance from the townsite and a pipe line is now under construction from the dam to the lower end of the town. The government has arranged with the G. T. P. to supply water for the installation of the system which will in addition to supplying the domestic needs of the town, supply an abundance of water for the use in the G. T. P. road house. The entire system will cost about \$100,000.

PROVISIONAL PLAN OF FITZTUGH TOWNSITE RECEIVED IN THE CITY

Residential Lots Will Be 66 by 29 Feet in Size—Business Lots 25 by 150 Feet—Town Is Assured a Gravity Water System—Clear Townsite This Winter

A provisional plan for the Fitztugh townsite which is located on a government engineer A. M. 112, west of Wolfe Creek, on the main line of the G. T. P., was received this morning by Howard Douglas, commissioner of Division government plans, from the department at Ottawa. The plan shows a considerable area on both sides of the G. T. P. railway right-of-way, laid out for business and residential property with provision for three small parks of oval shape and between 1,000 and 1,500 feet long arranged close to the centre of the town. No actual surveys have been made as yet, the provisional plan having been prepared with a view of furnishing a model which will be followed as far as possible, when the townsite is laid out by the surveyors. No allowance has been made in the plan for the G. T. P. tracks, which have not yet been located finally but which will be planned to be placed between the G. T. P. tracks and the shore of the Athabasca river.

Mr. Douglas stated this morning that the work of laying out the townsite will be started in the near future and will be completed during the winter months. On the side of the G. T. P. tracks away

Roosevelt Intimates That He Will Never Again Be Candidate for Presidency—Has Received Many Offers of Support from Prominent Writers

(Western Associated Press.)
New York, Nov. 25.—Theodore Roosevelt when asked today regarding the report that he may again be a candidate for president told a correspondent that a statement might be made to the effect that he would not again be a candidate.

He has said exactly the same thing many times before. He cannot see why it should be assumed that his article in the Outlook indicates that he is ready to take any personal part in the coming campaign.

It can be stated that Col. Roosevelt has received many letters indicating the willingness of the writers to give him political support if such be desired. It can be stated that Col. Roosevelt today received a letter from a certain United States Senator offering the full political support of the senator in case Col. Roosevelt should wish to be a candidate in the national campaign.

To this letter Col. Roosevelt has replied that he earnestly hopes that the senator will not only refrain from any action looking to the nomination of Col. Roosevelt but will prevent friends from taking any such steps. The senator's comment would be that Col. Roosevelt upon this announcement that he "instilled" should not name the senator to whom he referred.

WAGNER'S LOSS CRUISER FIRES IN AUSTRIAN SHIPS

EDMONTON'S GAIN

(Western Associated Press.)
Vancouver, B. C., Nov. 25.—(Negotiated) but never the less inevitable, the people of central British Columbia are turning away from the markets of Vancouver to those of the cities of the Rocky mountains. This, at least is the view of William Blair, one of the leading merchants of the Northern Interior, who is at present in the city placing what he says will be his last. Blair is probably the best known merchant in the north country, owning six stores from Barkerville to Fraser Lake. His headquarters are at Port Kootenay. According to Blair, the completion of the Grand Trunk Pacific to Port Kootenay this winter will result in the opening of water navigation routes on the upper Fraser to Port Kootenay, which will result in the situation of metropolis to central British Columbia.

CRUISER FIRES IN AUSTRIAN SHIPS

CAPTAIN STATES THAT HE WAS
UNABLE TO RECOGNIZE THE
WARSHIP.

(Special to The Capital.)
New York, Nov. 25.—(Associated Press.)—An anthropologist, author and philosopher, entered upon his seventy-fifth birthday, having been born in Dunfermline, Scotland, Nov. 25, 1837. He is in good health, as well as he has felt in years, as he declared upon his arrival home recently after his summer vacation in his native country. The Marquis of Salisbury of which it was impossible to ascertain, disappeared in the darkness.

MORSE TAKEN TO ARMY HOSPITAL

BANKER CONVICTED OF EMBEZZLEMENT—MORSE TAKEN TO HOSPITAL FROM INDISSOLUBLE DISEASE.

(Western Associated Press.)
Atlanta, Ga., Nov. 25.—Charles W. Morse, the New York banker, will be transferred tomorrow from the Federal prison here to the Army hospital at Fort McPherson, where he will be kept under the surveillance of physicians for an indefinite period.

Col. J. T. Vane-sdale, in command of Fort McPherson, today received orders from Washington to prepare for Morse's arrival.

A Count Allowed for Every \$1.00 Paid in With Count

The plate containing the dots was made by the Byron-May Engraving company of this city, and their artist is the only person who knows the exact answer. No employee of the Byron-May Co. or the Daily Capital knows this answer. He has placed the answer in a sealed envelope in a box in the Royal Bank of Canada. It will be opened only by the committee appointed on the night the contest ends. All counts will be placed in a sealed box by the persons bringing them to the office; this box will be sealed by someone not in any way connected with the Daily Capital and will be opened only by the committee in charge the night the contest ends. There will be no appeal from the artist's count; it will be final and will be exact.

Special mechanical arrangements have been made to reproduce cut direct from plate, still further obviating any possible chance of a blurred print.

RULES

Rules to govern the present competition are as follows:

No competitor will be awarded more than one prize.

No person connected with the Daily Capital or Byron-May Engraving company will be allowed to compete.

One count allowed for every dollar sent in on new subscriptions, and to old subscriptions paid three months in advance.

If you are not a subscriber, become one at once. Every member of the family may count and have the money paid applied on one subscription.

The Drawing

will take place under the direct supervision of a committee composed of some of the most prominent business men in Edmonton.

POWER CHARGES CONSIDERED HIGH

Waterworks Department Is Paralyzed by Bill of \$66,720.25 and Street Railway Department's Deficit Materially Increased—Lighting Dept. Will Show Surplus

Edmonton's power plant cost the city during the fiscal year just ended the sum of \$229,271.63. This includes maintenance, operation interest and sinking fund. Every day the cost of power is increasing.

Such are the figures that are charged by the power plant to the Waterworks department, the Electric Light department and the Street Railway department.

Last year these charges were \$189,648.29.

For the year 1943, the charges were \$174,283.50.

The individual power house charges for the last fiscal year, and the year previous to the various departments are:

Water Dept. \$ 88,435.62 \$46,180.75
Dept. 8,843.62 \$4,160.75
Lighting Dept. 114,211.74 59,211.74

Water Dept. 66,720.25 29,211.63
The charges to the three departments, for the last four months are shown as follows:

Street Railway Department.
Operation, \$26,896.29; maintenance, \$1,298.67; fixed charges (interest on debentures, etc.) \$5,335.26; less \$169.98; revenue from miscellaneous sales, track, rent, etc. total \$27,221.24. Kilowatt hours, 1,262,074 at \$23.88. Charges for eight months previous, \$26,632.28, making total charges for two months ending October 31, \$88,056.62.

Electric Light Department.
Operation, \$30,001.77; maintenance \$5,315.11; fixed charges, \$16,086.53; less \$501.46; revenue from miscellaneous sales, spur track, rent, etc. leaving total charges \$50,899.25, for four months ending October 31. Charges for eight months preceding, \$50,812.21, making total charges for two months, \$101,711.46.

Water Works Department.
Operation, \$18,125.71; maintenance, \$11,191.98; fixed charges, \$6,625.77; less revenue from sales, rent of spur track, etc. \$207.52, leaving total charge for four months, \$33,645.95; charges for eight months preceding, \$30,671.29, making total charges for two months, \$64,317.24.

Departments Hard Hit.
With the exception of the electric lighting department, the utilities department upon the power house charges themselves hard hit. The lighting department does not express any unusual surprise at the fifty thousand dollar bill handed to them. But the water department and the street railway department and their respective

trio lighting department does not seem to be disconcerted by the bill presented him by the power plant. He was expecting it to be around the half-hundred mark and was pleased for the shock. This charge of the first four months is not so much out of proportion to the eight months previous as the figures supplied alternating electricity have not been breaking down. The lighting department will show a surplus of some \$10,000 should a deficit of \$6,000 now outstanding. The \$6,000 deficit will be met out of the department will have \$10,000 to the good remaining.

There has been a terrific increase in the business of this department during the present year. An increase of 100 per cent. has been enjoyed in the power plant; that is, electricity for power purposes furnished to drive motors, etc. has been in demand. This comes on the day that and is being, practically, for the lighting department.

The business done by the lighting department has amounted to over \$200,000.

SCHOOL DISTRICTS NOT AMALGAMATED

EDMONTON AND STRATHCONA WILL EACH LOOK AFTER THEIR OWN SCHOOLS.

While provision has been made in the "Greater Edmonton" bill for every contingency which may arise, as between the two municipal corporations, as yet no steps have been taken towards the unification of the school districts under the jurisdiction of the school boards. That the Edmonton and Strathcona school districts shall cease to exist as separate entities will be the public corollary of municipal amalgamation. Their union may be brought about either by special legislation or by the action of the deputy mayor of education.

If the latter course is pursued (and this is the favorite of the schools) some action in the near future union will in all probability be brought about in the way, an increase in the personnel of the board, sought by the Edmonton body at intervals during the past few years, cannot be carried out. Under the present law provision is made for the election of but five trustees in all towns and cities of Alberta.

Under an amendment is carried the schools of Greater Edmonton will be placed under each board—city and public and high schools and one of the separate schools.

Superintendent of educational affairs in Edmonton and Strathcona is now subdivided between ten election men—five for each city. Upon amalgamation of the districts the number will automatically be reduced by one-half. The personnel of the separate school boards will be similarly reduced.

Between municipalities there is a differ-

Nanking, Nov. 25.—(Wireless to Shanghai).—Ten revolutionary forces today captured Tiger Hill fort, the outside walls of which commands the city and river. Several big guns were taken, a number of inmates have joined the rebels.

JUST QUESTION OF WAGE.

Whether St. Germain and Kenville, former and workmen respectively on a strip of railroad construction work on the G.T.P. line, were engaged under agreement with Contractor McDonald, or whether the men were entitled to daily wages, was the question which Judge Taylor was called upon to decide in a couple of actions which came up for trial at Edmonton on Tuesday last.

Both Kenville and St. Germain offered actions for non-payment of wages. Kenville, it appeared was hired by St. Germain. His home received his decision.

SPORTGRAPHS

Rumor has it that George Stovall, the former Cleveland manager, will not the Toledo American association team next season.

The Three-leaf league is one of the first leagues to plan their schedule for 1945. A four-leaf schedule calling for 140 games will be adopted.

BIG PROFITS CAN BE MADE BY BUYING NOW IN

GROUARD — Lesser Slave Lake

GROUARD is a place for the Business Man, Professional Man, Capitalist, Investor and Farmer. It is not a subdivision or a proposed townsite—it is in the very heart of an established town. Read its history, its resources. Look at the map and be convinced of its future. Profit by this offer.

TWO PROPOSED RAILWAYS

GROUARD has a population of 450.
GROUARD is a seat of a Catholic Bishop House.
GROUARD is also a seat of an Anglican Bishop house. There is also a Methodist minister.
GROUARD has a Post Office, Government Telegraph Office, Telephone, Weather Bureau, Mounted Police, two doctors, drugstore, bakery, blacksmith shop, boarding house, saw mill, land office for the far famed Peace River; general stores of the Hudson Bay Co., Revillon Bros., Peace River Trading & Land Co., and V. Maurice; the Bank of Commerce has a branch there; also a hotel will be there soon.
From July 31 to September 31st of this year 284 homesteads have been filed at the Grouard Land Office.

It is not necessary to repeat here the story of the boom in real estate which has taken place in other Western Cities, where people without capital have made big fortunes.

If anybody tells you that it is an undesirable proposition, judge for yourself—study the location, price; also the transportation facilities; also the future of Grouard when the Canadian Northern branch will be opened between Edmonton and Athabasca Landing. Do not be deceived by people who criticize every proposition put on the market.

Go into this proposition right now if you want to buy the best lots at original prices. Later on you will laugh at the people who are skeptical about investing when you did and refused to buy when exceptional offers were made to them.

GROUARD First Settlement and Distributing Centre of THE PEACE RIVER COUNTRY

— LAVARSENE RESIDENCE AT GROUARD

For almost a century Grouard, at the west end of Lesser Slave Lake, has been one of the most important points in the whole of the country north of Edmonton. There are but two routes to the far northern trading posts—one the all-water route and the other by way of Grouard. For generations it has been a shipping point to which all the trails of the northland converged, and despite the lack of market for the grain grown there, other than a local one, the settlers of the district have grown wealthy in supplying the needs of less fortunate posts and of travellers.

Since the eyes of the world have been attracted to the Peace River country as the last great frontier, it has been learned by many that Grouard is the business centre of that country, the hub from which branch the trails to such vision-producing lands as the Grande Prairie, Spirit River, Dunvegan, Winagami Lake, Peace River Landing and Fort Vermilion. The Peace River is the name given to the district which lies north of the 55th parallel and west of the 5th meridian, comprising in all about sixty million acres of land. Of this it is estimated that two thirds are arable land.

STEAMBOAT LINES

Grouard is the business centre of Northern Alberta. Situated at the west end of Lesser Slave Lake it has the advantage of the line of steamers

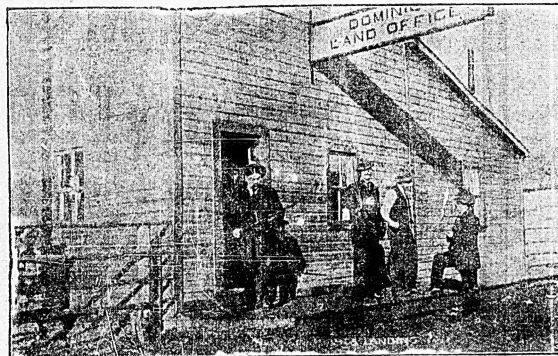

traffic is heavy and is increasing each year with a rapidity which makes it difficult for the transportation company to meet the demand. Since the world has learned what the Peace River country has to offer in farm and timber lands, natural gas, coal and oil, the big railway companies have had their eyes fixed on Grouard and at present there are two lines projected which will bring it in close touch with the outside markets. Also it will greatly enhance the value of rich farm lands tributary to the town.

The soil of this section of Alberta is a rich black loam with a clay subsoil, which agricultural and chemical tests have demonstrated are wonderfully productive. The whole country is well watered and drainage is provided by a number of small creeks and rivers, which are fed during the summer months by innumerable springs of pure water. There is a gravel strata below the subsoil which provides a flow level for water, in which wells give ample water supply, at a depth of from twelve to twenty feet.

GRAIN AND VEGETABLES

Farming has been most successful in all its branches in this district for many years past, and the High Prairie, Heart River and Big Prairie settlements have won a name for themselves with their crops of wheat, oats, barley and rye.

a common occurrence. The average, however, is about 50 bushels. The Peace River country first came into prominence as a wheat raising country.

in 1876 when it won against the grain of the world at the Philadelphia Centennial. Seventeen years later it carried off the same honors at Chicago. But the country was then too

CLIMATE AND PRICES

Though the market has been limited, the farmers have realized good prices for their crops, as the price for oats ranges from \$1.00 to \$1.50 a bushel and for wheat from \$1.50 to \$2.50, in fact almost double the prices received at points on the railways. Cattle and horse raising, too, have been most profitable for with the abundance of food and natural shelter, the cost of production has been light and the demand heavy. Climatic conditions are more favorable than in the majority of Western Canadian districts. The distance north is counteracted by the influence of the chinook winds in winter which sweep down upon the Peace River country through three mountain passes. The low altitude, combined with the long days of the growing season, furnish ideal conditions for crops. The rainfall is ample, and the greater part of it comes during the growing season.

NATURAL RESOURCES

Too much cannot be said of the resources of the Lesser Slave Lake region. Both economically and aesthetically it is the finest lake in Alberta. Sixty miles in length, it varies from five to twenty miles in width, and its waters are breeding grounds for several varieties of commercial fish. It is estimated that a million pounds of trout and whitefish could be

homes. There is room for all and to spare.

For years past the Peace River country has been essentially a mixed farming country, for there was little beyond the local market. The result has been that the settlers have raised all classes of produce for which the soil was suitable. To the grains and vegetables which can be successfully grown there appears no limit. Beets, potatoes, carrots, onions, lettuce, radishes, cabbages, etc., have proved particularly adapted, while during favored years tomatoes, cucumbers and corn have been successfully ripened in the open. Wild fruit of a dozen varieties are found everywhere,

shipped from it annually without affecting the supply. The shore line is timber and hay land and in these products alone there is a tremendous

subdividing of the tract wrote: "Only the facilities of a railway are wanting to make this as fine a tract of farming country as there is in the West."

GOVERNMENT ROADS

Already the government of Alberta has spent a considerable amount of money in providing roads into the Slave Lake country. The present route to Grouard is from Edmonton to Athabasca Landing.

C.N.R. WILL CROSS FROM LANDING

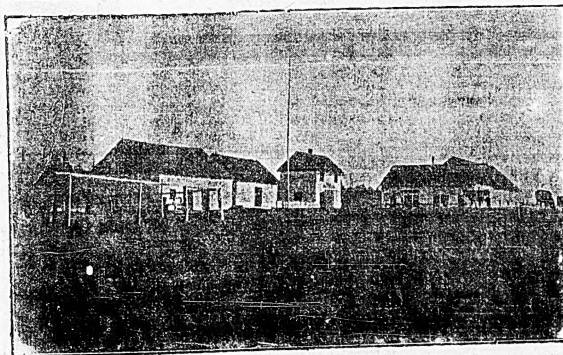

From there it follows the Athabasca and Lesser Slave rivers, and the south side of the lake. The road from the Landing is supplemented by the steamboat lines. Though this road is in fair condition it is not suited for heavy hauling. The plan of reaching Grouard which is suggested, is for proposing settlers to come in during the summer months with light loads. The land can then be located, hay put up for the winter and buildings erected. The heavy teaming can then be done during the winter, when the road is in perfect shape. Land-lookers can be thoroughly equipped at Grouard. This route is also recommended for parties going in to the Grande Prairie, Dunvegan, Peace River Landing and beyond, for stopping places and feed can be secured all along the line. Loads of from two to three tons can

New-comers would do well to bring in their farm implements and food supplies, and they will also find it cheaper to bring with them heavy hardware, such as nails, windows, doors, stoves and furnishings. Rough spruce lumber can be procured at Grouard at \$20 per thousand feet. There are several good stores at Grouard, including posts of Revillon Brothers, and the Hudson's Bay Co., Peace River Trading Co., while Mr. Verner Maurice runs a steamboat in connection with his general store and freight department.

HEADQUARTERS OF DISTRICT

The Dominion lands office for the Peace River district is situated at Grouard, and there information is gladly furnished settlers. The area of the country immediately tributary to Grouard is over two million acres, of which six hundred thousand acres have been subdivided and made ready for settlers. There is no land for sale or held for speculation. Every acre of it is open, to homestead. For the fiscal year ending March 31, 1941, the number of quarter sections finally disposed of showed an increase of 815 per cent. over the previous year.

The board of trade of Grouard is anxious to encourage settlement in that district, and every

BOARD BILL PAID. DEFEATS VAG LAW

Mail Shows He Has Two Weeks Lease on Place at Table.

The advantages of having one's board bill paid in advance are illustrated in striking fashion by the outcome of an appeal which was heard by Judge Taylor at Wollman early in the present week. Joseph Fielding, a railway worker, had been sentenced to imprisonment at Edson by Inspector Havel, on a charge of having no visible means of support, or in common parlance, as an ordinary "vag."

DISTRICT COURT.

An appeal has been entered by J. Havel, convicted at Edson by J. Havel, J.P., on a charge of harboring contraband liquor. Havel was fined \$50, with the alternative of a prison term, on the ground that four gallons of liquor were alleged to have been found upon his premises in the village of Edsonville. The appeal will come up for hearing before Judge Taylor in the district court at Edson on December 8.

Judgment for the plaintiff has been handed down by J. Havel in the case of Havel vs. Havel.

NON-SUPPORT IS CHARGED.

At the sittings of the district court which opens at Fort Saskatchewan on Tuesday next, his honor, Judge Taylor on the bench, J. Ludwig will be charged with non-support of his family.

A number of large and small debt cases will come up for trial. The cases of Nash vs. Gair, De Brouin vs. Wilkins and Chamberlain vs. De Brouin, relate to small debts. Under the heading of large debts the only case is that of Elliott vs. De Brouin.

DOTHAM RECALLS THE EVACUATION

New York, Nov. 25.—New York today held its usual observance of Evacuation Day, the anniversary of the evacuation of the city of the British troops at the end of the revolutionary war. On November 25, 1783, the last British troops on American soil departed from the city, and as their ships made way down the bay Washington army entered.

CHINESE STUDENTS LEAVING.

San Francisco, Cal., Nov. 25.—One hundred and fifty Chinese, who, on account of education and support was recently cut off by the Manchus will leave for their college careers in America and return to China on the liner Persia on November 29th. Forty-five students are from California schools and the others from eastern institutions.

ENTWISTLE KICKS ON TOWNSITE AD

SAYS, "RAILWAY REAL ESTATE ARE MISREPRESENTING LOTS OFFERED."

That the controversy which has been going on between the town of Entwistle and the Grand Trunk Pacific railway, is not yet settled is made evident by a communication sent out by the Entwistle board of trade and signed by the municipal officials and every business man of the embryo city on the banks of the Pembina.

The Entwistle controversy revolved around the location of the station. Before the railway came a town had already been established on the banks of the river, and when the townsites department of the railway came on the scene it was already too late to get possession of the property as had been done at other places along the line. The railway company then followed the usual practice and located its station a mile to the east of the town, securing through influence at Ottawa, the location of the immigration hall at the station. The board of trade of Entwistle took the case to the railway commission and secured an order compelling the railway to put its station in the town.

Now the Canada West Townsite company is advertising the "Original Grand Trunk Pacific Townsite of Entwistle" and is endeavoring to sell lots at the station location. The communication sent out from Entwistle says:

"This so-called 'Original Grand Trunk Pacific Townsite of Entwistle' is outside the corporate limits of Entwistle, and the Canada West Townsite company have therefore no right to use the name of our village to 'boost' their property. Photos of the Entwistle sawmill, etc., are also included in their illustrated souvenir."

"About twelve months ago, the G.T.P. built a station over one mile east of the town, although the site had not been approved by the board of Railway Commissioners, as required by section 256 of the Railway Act. The station appears to have been located to benefit the Canada West Townsite company, who own the adjoining property, which was purchased from the G.T.P. and has been on the market for some considerable time. In spite of this, only two buildings have been erected. The government immigration hall (which will almost certainly be shortly removed) is of no use in its present location, landowners preferring to stop in town, where they can secure the comforts and conveniences a young town affords. We have the assurance of the representatives of the government that the matter will be taken up, and have been moved to the town, where it will answer the purpose for which immigration halls are built and maintained. Another small building has just been completed by a home-builder whose exterior section belongs to the property of the Canada West company. There are no

other buildings, neither are there any under way as advertised. At the station, there has never been any agent, there is no telegraph and no tickets have been sold. "Entwistle itself, situated on the banks of the Pembina river has natural drainage and excellent water. The village is incorporated, has a board of trade, splendid hotel accommodation, large general stores, good school, two churches, postoffice, land office, telephone, sawmill, doctor, justice of the peace, notary public, etc. "The town will naturally grow north along the river bank towards the sandstone and coal properties, not towards the east."

FUNDS FOR MISSIONARIES.

(Western Associated Press.) Toronto, Ont., Nov. 25.—Rev. T. S. Eason, secretary of the Foreign Missionary department of the Methodist church, called to Shanghai, China, today stating that funds were on the way and asking if any word has been received from the thirteen missionaries and their families in Cheng Tu. This province is about two thousand miles from Shanghai and in the interior.

To the Real Estate Men : : : : in Edmonton : : : :

Announcement

HAVING traveled more than 25,000 miles a year for the past ten years, and having thoroughly investigated the Real Estate interests in nearly every section of the United States, Canada and Mexico, I feel that you will congratulate yourselves on having made Edmonton your choice, when I tell you that after traveling a distance of more than ten times around the world in ten years, I, too, have chosen Edmonton as the centre of one of the greatest inland empires in the civilized world, a city with a record-breaking past, a proud present and a great future.

Real Estate being the foundation of all investments, I have chosen it as a foundation for my own operations. I have secured offices at 18 Jasper Avenue East, in a brick building, on the outside wall of which I have had a large Bulletin Board constructed. Besides this wall I have secured a vacant lot, on which I have laid a floor for the accommodation of the public.

It is now my intention to accept Real Estate Listings from Licensed Real Estate Dealers, and display these Listings in various attractive ways on the Bulletin Board, which is in one of the most conspicuous places in the city, with the understanding that **EVERY DEAL MADE from the Board is to be ABSOLUTELY AS REPRESENTED, or REFUND THE DEPOSIT.**

Any dealer furnishing a list of property which proves defective on inspection by a would-be purchaser must pay a commission the same as if the deal had been consummated. Any person failing to pay a just commission will not be entitled to the benefits of the Bulletin Board until the deficiency is made good. All lists shall bear the owner's signature or be guaranteed by the dealer.

Where an owner lists the same piece of property with several dealers the first dealer only who lists that property with me will be entitled to commission if deal is consummated. Should a listing be accepted from an owner by a Bulletin Board employee, it will be credited to a dealer according to his numerical position on the register, or to any dealer by request of the owner.

My aim is to give the greatest publicity possible, and you will see by the foregoing that a dealer may have his office in an obscure place and yet be represented in the most conspicuous location in the city, and that it is perfectly safe for any man, woman or child to invest in Real Estate listed on the

Bulletin Board, in public, under an absolute guarantee that all property will be as represented or money refunded.

On arriving in Edmonton I realized that great possibilities existed for publicity and I also believed that my long experience as a traveling salesman and lecturer had specially fitted me for this work, and not wishing to monopolize or take all the advantages to myself I have suggested this plan to let others participate in them.

I shall appreciate any advantageous suggestions that you may make, and will be pleased to have you call on me and get acquainted, and be enrolled as a patron of the Bulletin Board. Being enrolled does not mean that you will place all your listings with me, the placing of these will be entirely optional with patrons.

The greater the number of listings submitted by a patron the greater will be the publicity. It will cost you nothing in the way of a membership fee to become a patron or member, you simply place your name on our register as a Licensed Real Estate Dealer. To subscribe early will be an advantage, because the first names enrolled will receive the first listings in the order of enrolment.

I have also rented the Majestic Theatre at the corner of Third and Jasper avenue, where fine advertising will be done in cold weather by throwing pictures of houses, lots, blocks, subdivisions, etc., on the canvas by a stereopticon lamp. In this way I can show listings very rapidly, and by the use of photographs of houses, lots, blocks and subdivisions I will be able to show property in summer dress all winter.

I will also furnish a good photographer free to take pictures of important property to be listed on the Bulletin Board.

Congratulating you on the wonderful growth of your city, and the wonderful resources surrounding it, far and near, the wealth of coal and minerals beneath it, and of sunny skies above it, with railways to and from it, with fish, fowl and furs in abundance convenient to it, with good laws to govern it, and happy families and happy hearts to enjoy it, I feel thankful for the many blessings that I find here to enjoy now, and I feel sure that with co-operation and thoughtfulness on our part for the good of our fellow men as well as for ourselves that many future blessings will be added.

Soliciting your co-operation and helpful influence, I am,

Yours very truly,

General Election For The Reichstag Takes Place on January 11

Government Is in a Precarious Position and Will Probably be Defeated—Body Guard of the Czar Publishes Some Interesting Reminiscences

(By Carl Waldemar.)

Berlin, Nov. 25.—The general election for the Reichstag will take place on January 12 next. This announcement which has been anticipated with such eagerness, is now made by the "Norddeutsche Allgemeine Zeitung," so that the minds of those politicians who were apprehensive that the government would spring an early date upon them will be set at rest. The parties are all prepared to commence the electoral campaign and efforts will be made to conclude the business of the present session as soon as possible.

The government is already in a precarious position, and does not attract legal support. Already rumors are afloat that Herr von Gulerich-Wachter if not the Chancellor himself, has lost the confidence of the Kaiser, and cannot look forward to a long tenure of office. With election time approaching a large number of members are more inclined to consult the desires of the public, which is unmistakably demanding an explanation of the Empire's foreign policy.

Motor Car Week.
This is the week of the automobile. The Berlin public has shown extraordinary interest in the international motor show exhibition and the huge hall where it is held has been packed. On some days it has been necessary to stand up certain sections to prevent dangerous overcrowding. According to motor-car experts, the display has a special interest in that it discloses the

automobile in a new and, possibly, final stage of its evolution. In its earlier history the motor-car, so far as outward appearance goes, lacked a distinctive character of its own. An attempt to vent the new-fangled motor with the old-fashioned carriage, it looked the hybrid thing that it was. Gradually it has been developing an artistic type and individuality of its own, and this, the experts declare, has now been achieved. However they may be, the new auto has as much unity of style and as much entity of its own as a yacht, and like a yacht, it is a thing of graceful, flowing lines from prow to stern. "The soul of the automobile," writes our enthusiast, "has at last been discovered."

Theatrical Sensation.
The sensation of the theatrical season, thus far, is Arthur Schuster's new five-act drama, "Das Weiße Land," now running at the Vienna author has been developing an artistic type and individuality of its own, and this, the experts declare, has now been achieved. However they may be, the new auto has as much unity of style and as much entity of its own as a yacht, and like a yacht, it is a thing of graceful, flowing lines from prow to stern. "The soul of the automobile," writes our enthusiast, "has at last been discovered."

"Das Weiße Land" is that broad and boundless domain, the human soul, which can never be so fully, completely

stilled by even the strangest emotion that there is not room for the growth of a crop of minor and incidental passions. A pleasure-loving, sceptical and frivolous husband, whose infidelities are frequent and variegated, is deeply loved by a devoted wife. It is only at his own cynical suggestion that she finally follows his example and in a single transient episode strays from the path of duty. The husband thereupon challenges her faithful lover and kills him—not because of wounded pride or honor, but because of his abiding, worshipful adoration for his wife, which has subsisted all along.

Thus it is proved, according to the Schuster formula, that true love is not necessarily a ground for loyalty, and that disloyalty does not preclude true love. The dialogue is clever and the technical handling brilliant. The play's great length has militated against its success, however, and criticism has been in the main adverse.

Germany is in need of some dramatic talent to write. "The Calamities of Musicians." He would find material for at least one chapter in the plight of Herr Felix Wengertner, who has just been defeated in a suit against the highest authority in the direction of the Royal Opera—femininely named, "The King of Prussia." When in 1908 Herr Wengertner gave up his post as conductor of the Royal Opera's symphony concerts and went to Vienna, the director of the Opera declared him to have broken his contract. The ensuing controversy resulted in a settlement; by which Herr Wengertner, in addition to the forfeiture of a sum in cash, bound himself not to conduct concerts in Berlin for a period of years. It is this settlement which he has now endeavored to set aside as both unjust and contrary to public interest, but the Court

holds that the agreement must stand. The result of the case is that for a period of five years, or until 1916, one of the greatest of the world's conductors will be unable to lead a concert either in Berlin or anywhere within a radius of thirty kilometers of it. It may be hard on Herr Wengertner, but as the press is publishing out, the public is equally a loser.

At an audience given to the chief dignitaries of the Synod of the Province of Brandenburg, the Emperor William referred to the case of the Cologne pastor, Dr. Jatho, who was recently deprived of his living for heresy, and in reported to have said that, deplorable as this fact was, it should not be taken too seriously. In every epoch there had been men like Jatho, and they would also be found in the future. The Emperor said that the Church of Christ overcame these adversaries, and against such heretics there was a splendid means of salvaging oneself more and more with Holy Scriptures, and of comprehending the personality of Jesus Christ the Saviour with faith and love. A truly apostolic man was the Bishop of Rhipon, whom he had met at the Court of his grandmother, Queen Victoria, of England, and whom he esteemed very highly. The Emperor then mentioned special passages from the Bishop's books, which, he said, he had presented to the Court previously.

What the Czar Does.
Count Semen Rodionoff, who was for two years one of the bodyguards of Czar Nicholas II., gives an interesting account of his royal master. The Czar, it seems, works very hard. He rises at seven o'clock in the morning and goes to bed at midnight.

After breakfast he reviews his private mail. He then goes through the newspapers or the newspaper clippings submitted by the Chamberlain; and afterwards reads "Novoye Vremya" and "Pravda." "The New York Tribune," and "The Berliner Lokal-Anzeiger." At one o'clock he usually is seated.

The rest of the day, according to the Count, is spent in receiving delegates and attending functions. He is usually, however, the Czar would not burden himself to the Court and ask him about his independence of foreign countries. "When I travel abroad," the Czar is represented as saying, "I

Pacific Coast Terminal

PORT MANN

The Industrial

First offering of inside city lots close to wharves and water front.

The Investment Opportunity of Your Lifetime

Fortunes have been made during the past few years by investors "getting in at the beginning of things."

PORT MANN is the Pacific Coast Terminal of the Canadian Northern Railway. Over 5,000 men will be employed in the car shops alone. The townsite is cleared, and wharves, actually built. The U. C. Steel Corporation will employ thousands of men at their \$10,000,000 works about to be erected by them here.

All the waterfront has been reserved for docks, grain elevators and factory sites.

City lots can now be procured on the lowest possible basis; from \$600 up on most advantageous terms.

The portion now offered is Section 9, Range 1, West, and only about 100 yards from the water and close to wharf. It faces the Johnston Road, which will be the principal business street to Port Mann—the town itself must develop from the wharf.

Terms: \$100 Cash and \$50 Quarterly

Every purchaser is guaranteed absolutely as to title. Deeds can be obtained immediately upon payment of purchase price.

Already we have sold \$150,000 worth of lots in this subdivision to prominent bankers, financial and railway men closely associated with the enterprise of Messrs. McKenzie & Mann.

PORT MANN

"The Steel City of the Pacific Coast"

A TEN million dollar steel plant will be erected there at once that will employ 5,000 hands. C.N.R. Land Commissioners are almost inundated with inquiries about new terminal townsite. May not be on market until next January. Several big industries are already signed up to establish plants there.

Port Mann To Hope

Sir Donald Mann States Coast Section of C. N. R. Will Be Open in a Few Months.

Chilliwack, Aug. 30.—Sir Donald Mann, one of the magnates of the Canadian Northern Railway system, as the guest of Allan Purves, manager of British Columbia of the U. C. Electric Railway, and Mr. Dixon, local manager, visited Chilliwack for a short time yesterday, coming up in a special car placed at his disposal by the U. C. Electric. The object of his visit was a purely sight-seeing one and in company with one of the local business men, he drove over and inspected the C. N. R. station site leaving shortly after Mr. Merren's steam launch, which had been sent to meet him from New Westminster. On going down the river he inspected the work on the C. N. R. right-of-way. When interviewed by the local press, Sir Donald's representative he was very reticent regarding the future plans and operations of the line, but he said this valley. He announced, however, that the line would be completed across the country within three years and that transcontinental trains would be running before that time. In the meantime a mixed train would be run locally more for the convenience of the company's building material and supplies than for what local revenue they expected to receive. The line between Port Mann and Howe would be open in a few months.—Westminster Columbian, Aug. 30.

Big Port Mann Deal

Nearly Quarter Million Paid for Quarter Section Cornering on New Townsite

A real estate deal involving a sum not much short of a quarter of a million, paid for a quarter section—near Port Mann—is reported from Vancouver. The acreage in question is that locally known as the old Jack Smith ranch, and corners on the Port Mann townsite, its legal description being quarter section 22, block 5, north, range 2 west. Some little time ago this property was bought by a Vancouver syndicate at the price of \$700 per acre, and the syndicate has now sold it for just double that figure—the total price being \$224,000. Messrs. Marriott & Fellows of Vancouver, were agents in the sale.—New Westminster Columbian, Oct. 9, 1911.

Port Mann Surveys

Local Firm Making Topographical Survey

There are now four parties of surveyors in the field at Port Mann. In addition to the party of G. N. R. transit-surveyors, who are surveying and laying out the yards, Mr. H. Neville Smith has three parties engaged in making a preliminary topographical survey for the use of the landscape architect, who will plan the subdivision of the townsite, and particularly the residential portion thereof, in such a manner as to take full advantage of the bay of the land.—Columbian, New Westminster, June 27th.

Agents wanted to sell this Port Mann Property—A good commission is paid for the right man.

am not able to see much of real life," and he pressed the Count to give him his opinion of London and Berlin.

"For myself," said the Czar, "I must confess that I do not care for London. Paris appeals to me as the most fascinating city in the world, although I have been told that New York, if one can stand its hypocritical puritanism, is one of the most interesting cities. German life impresses me as being too formal and too mechanical; while the English people are prosaic and too devoted to sports. We Russians are at least frank with our virtues and our vices. We don't make a fuss about the private affairs of the individual. There is substance and romance in the Russian life."

The Czar himself according to the Count wanted to travel incognito in America while he was Czarovich, but his father would not allow it. According to the Count, the Czar takes a deep interest in social questions, but is a determined enemy of Socialism, which, it seems, he traces most of the troubles of his country.

BUSINESS MAN GOES TO JAIL

CHARGED WITH DEFRAUDING POST OFFICE OUT OF FOUR CENTS—GIVEN ONE MONTH

(Globes Cable Service)
Vienna, Nov. 24.—A business man named Max Trinczes, has been condemned to a month's imprisonment at Lemberg on the charge of having defrauded the post office of 4 cents.

In Austria one is allowed to return letters which one does not accept to the sender without paying any extra postage. Herr Trinczes had received four postcards from a firm announcing that they had sent goods ordered by him. As he had not ordered anything he wrote on the margins, "Return to the sender; nothing ordered," and now finds himself in the latter box.

The postal authorities regarded the words "nothing ordered" as a new communication, but instead of asking for the double postage they prosecuted him on a criminal charge. The first court regarded the offence as merely formal and inflicted the minimum sentence of twenty-four hours, but the Public Prosecutor appealed, and the higher court increased the penalty to one month's hard labor.

EDMONTON GETS LARGEST PIECE OF PIE AT ANNUAL MEETING OF HOCKEY ASSA.

Edmonton Secretary-Treasurer Appointed—Strathcona and
Edmonton Recognized as One City by Association
—Strong Residence Clause Adopted

BOB PEARSON IS ELECTED PRESIDENT

Unanimous Selection of the Meeting—Will Maintain True
Spirit of Amateur Hockey—F. H. McPherson
Is New Secretary-Treasurer

THE PRESIDENT'S IDEA.

In accepting the office of president of the hockey association last night, Rev. Robert Pearson, affectionately known as Bob Pearson, said: "Gentlemen, I appreciate very much the honor you have conferred on me. I am for good clean sport and I will do my best to uplift and uphold the amateur game in the objects of our constitution and during my tenure of office it will be my best effort to sustain the spirit of this object."

THINGS ACCOMPLISHED.

A residence clause which will administer the knock out drops to the introduction of subterfuge in the shape of semi-professionalism.
The election of a president, who has the courage of his convictions and who will give every team a square deal impartially.
The election of a secretary who knows his business and who is thoroughly acquainted with the Alberta hockey situation.
All possibility of friction as to Strathcona players figuring on Edmonton teams dispelled by the adoption of a resolution considering Edmonton and Strathcona as one city.

(By Our Special Representative.)
The Amateur Hockey association of Alberta is rejuvenated and on a firmer, cleaner basis than at any time in its career. The first step in this direction at the annual meeting last night was the election of Bob Pearson as president by unanimous vote. There is no better supporter of amateur sports in the province than Bob Pearson, and no one who is more looked up to, admired and free from any suspicion.

Edmonton has every reason to feel pleased at the outcome of last night's meeting. In the first place, Pearson's residence clause went through, which provides for players to be resident in the town in which they play on November 1st. This puts Chuck Clark out of business in playing for Calgary. Again, Strathcona and Edmonton are recognized by the association as one city, which will allow Neil Sutherland et al. to play with the Eskimos. Edmonton also has one of the best sports stated as secretary-treasurer, in the person of F. H. McPherson, sporting editor of our afternoon contemporary. "Mr. B." in being elected to this office, is getting part of this recognition due him for his efforts to uplift and maintain amateur sports in the province of Alberta.

The annual meeting passed off in good shape, the new president getting down to hard task and all needless discussion was cut out. A little lobbying during the day settled one or two bones of contention, and the majority of the delegates arrived at the meeting knowing just what they wanted and what they were going to get.

Minutes Adopted.

Business opened shortly after eight o'clock with Past President J. L. Dobson in the chair. Secretary N. E. Carruthers read the minutes of the last meeting which were adopted. He also read the treasurer's report, which shows the association to have a balance of \$76 in hand to start the season with. Mr. Carruthers has also administered the association with the A.A.H. The committee on credentials examined the papers of the delegates and the following were admitted to the meeting:

J. L. Gibson, president; N. E. Carruthers, secretary-treasurer; E. Topf, Didsbury; Deacon White, Deacon's Eskimos, Edmonton; Gault Gary, Varsity; L. J. Gibson, president Edmonton Y.M.C.A.; A. McGee, Calgary; St. Mary's; Rev. Robert Pearson, Red Deer; Steve Gibson, Calgary; St. Mary's; Fred W. Gravelle, Calgary; R. H. Dobson, Lethbridge.

Maritime Get Franchise.
Applications were received for franchises from the Maritimes of Edmonton, Inassano and Calgary Central. All were granted and Dea Tibbitts of the Maritimes and W. McDowell from Inassano were allowed to take seats in the meeting.

On a motion by Deacon White it was decided to divide the clubs into four districts. The northern division including Edmonton and Strathcona; the central division, including all teams

three amendments and Deacon finally withdrew his resolution. The meeting was adjourned for the night. The November 1st rule was passed. The residence clause was adopted. The election of a president, who has the courage of his convictions and who will give every team a square deal impartially.

Count May seconded by Leroy Chown offered a motion that Strathcona players be not allowed to play with Edmonton teams but the motion was defeated and a motion by Deacon that Strathcona and Edmonton be considered as one city by the association was adopted.

A resolution was also offered by Deacon that the secretary be instructed to communicate with the hockey associations of Manitoba and Saskatchewan with a view to forming a Western Canada Hockey association and the matter will be dealt with by the executive committee.

Giants Take Two From Olympics

Line's Aggregation Are Now Going Strong for the Championship.

The Giants won the first and last of the three games played in the Olympic league last night. Some fairly good scores were rolled up. Bolton getting 224 in one game, while Simonson was hit; man with a total of 541. The scores were as follows:

OLYMPICS—
Group 125 172 143-147
Hamilton 115 118 144-107
Hern 115 168 153-138
Lawrence 171 138-109
Morris 150 196 172-118

Totals 723 925 795-2340

GIANTS—
Jones 167 151 223-541
Dreger 112 143 129-100
White 151 170 151-178
Bolton 152 224 153-228
Simonson 158 275 175-241

Totals 743 901 836-2488

The individual averages compiled by the league secretary up to the end of the second week of bowling in the Olympic league show a better man than they did last week. Although the high man has descended a little, the general run is much better. They are as follows:

CANDID COMMENTS

(By Area)

I had the pleasure of attending the meeting of the Alberta Amateur Hockey association in Calgary last night and Edmonton fans want to shake hands with themselves that they got the square deal that was ever given a city. In fact it is all Edmonton and anyone that wants to kick now should kick himself. The credit for the new state of affairs is due principally to Deacon, who stood up and asked for no favor but for a square deal.

He explained the position of affairs in Edmonton and before he commenced the season wanted to know just how the meeting felt about the Edmonton and Strathcona controversy. The result was that every body saw the meeting felt about the Edmonton and Strathcona controversy and selected it once for all. Strathcona and Edmonton are one city in the eyes of the association.

The long pin of all is the residence clause. This season no man can play for a team without having resided in the city in which that team is located prior to November 1, and a four week season was agreed that next year it be made to read October 1. So it looks all right with Mr. Chuck Clark, figured hand of put the kibosh on the new rule. Fred Gravelle's golfers. It has long-drawn a much job down south.

The new clause does not effect the Eskimos having a potshot on at paper only, to have the strongest association in the province. The residence clause may have with the Calgary Tigers team as they had figured on two or three star importations, but Fred Gravelle is good enough sport to concede a win or put money on an amateur back with a lead pipe when it is to be amateur at all, and he will be content to lose his imports.

Steve Clancy told me yesterday, that the St. Mary's line-up will be pretty much the same as last year. The line-up last year, King, the fast left wing was, he said, and J. P. Bell, who kept goal has gone back to Ottawa. Porter was play at centre, Maush will play point, Hagan will be a go-go. Green as rover, H. Sparrow on the right wing, I've Reuben in the centre, Alex McGee, captain of the team at 191, on the left wing, and Ernie Smith, of the St. Mary's intermediate team, in F. A. will attempt to keep the line for this season.

Deacon has received a letter from Joe Cohen, manager of the Spokane baseball team in the Northwestern, asking him if he can place Calmer Spizman as a pitcher in the Western Canada league. Spizman is a good man and formerly played with Vancouver.

PORT ARTHUR IS AFTER LESUEUR FOR GOAL TEND

Ottawa Custodian May Go to Lake City—New Defence to Be Secured

Winnipeg, Nov. 25.—According to reports, Port Arthur is to have a strong hockey seven this winter if money can secure the men to bolster up the weak points on the team. J. J. Garriek, M.P., has already donated \$1,500 toward the team, according to Macdonald, M.P., of that town, and another enthusiast has promised a like amount. This sum will be devoted to securing a star defence, as those behind the same think that last year's forwards are good enough if properly coached. Lines are out for Percy Le Sueur, the famous guardian of the Ottawa club, and if he can be secured, the position of manager will likely be given to him. The names of the other defence men the club is after has not been announced.

Winnipeg and Brandon Franchises Now Belong Western Canada League

San Antonio, Texas, Nov. 25.—Secretary J. H. Parrell of the board of arbitration of the National Association of Professional Baseball leagues, which was in session recently at San Antonio, announced the following rulings of the board, made among others:

Application of Canadian league in advancement to class "C" disallowed. Application of Western Canadian league for membership in class "C" allowed.

Claim of James Graffell vs. LeCrosse, disallowed.

Claim of Payer Young vs. Rochester, Minnesota, allowed.

Claim of St. Joseph, Missouri, vs. Rochester, Minnesota, allowed.

Player Whelan is awarded Minnesota.

Application of W. W. Kelly for reinstatement, granted upon payment of fine of \$100 and title vested in Pough, Colorado.

Territorial rights to Winnipeg and Brandon granted the Western Canadian league.

Claim of Umpire Watson vs. Wisconsin league allowed.

Decisions in about fifty cases were laid over till meeting of national board in New York on December 9, 1911.

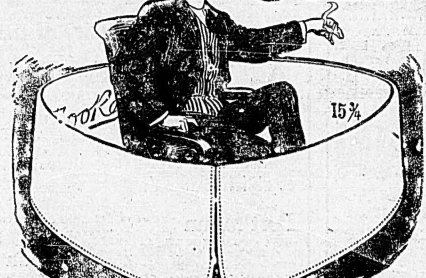

Umpire PAID \$100 GAMES.

The four umpires who worked in the recent world's championship baseball series between the Philadelphia Athletics, winners in the American League, and the New York Giants, victors in the National league, Messrs. Connolly and Dineen of the American league staff, and Kien and Brennan of the National league, received \$500 each and all their expenses. Each man worked for \$100 a game.

NEWS OF THE CITY

Scotchmen in the city will attend church services tomorrow morning in First Presbyterian church where Rev. Dr. McQueen will preach a sermon in commemoration of St. Andrew's church. All Scotchmen are requested to be in the basement of the church at 10.30 o'clock so that they can take their seats in the auditorium upstairs together.

A grand Scotch concert will be held in the separate school hall on Thursday evening in honor of the patron saint of the Scotch St. Andrew. The best talent is being secured to contribute to the program which will be high class throughout.

The regular bi-monthly meeting of the Royal St. George's society will be held in the Odd Fellows hall, Jasper east on Monday evening, November 24th. Every member of the society is requested to be at the hall promptly at 8 o'clock so that the business can be disposed of by 9 o'clock when all Englishmen, Westmen and their friends are invited to the meeting for the enjoyment of a good program of music readings and speeches.

A novel scheme of advertising has been introduced in the city by the Weisman-Gibbs Real Estate company, in the shape of a billboard near the corner of First Street and Jasper avenue on which appear each day amusing and attractive chick societies selling forth the merits of the property the company has to offer for sale.

The city lodge of the Royal society of St. George, meets on Monday evening at 8 o'clock in the Odd Fellows hall, Norwood Block, Jasper avenue; members are urgently requested to attend early. At 9 o'clock the doors will be opened to receive any Englishmen, Westmen or their friends to be present, during the social hour when a program of music, etc., will be given. A hearty welcome will be extended to all who are interested in the work of this active and useful society. An urgent meeting of the Ladies' Council of the United Aid will be held Monday afternoon at 3 o'clock. The meeting will be held in the rooms at 560 Jasper east.

SENTENCE SUSPENDED.
Justus tempered with mercy was handed to Harry Marshall and Evan Strathmore by Judge Taylor in the district court yesterday. They pleaded guilty to having stolen a book of 100 tickets from the C. P. R. of 100,000 and threw themselves on the mercy of the court. H. H. Robertson, their attorney, made a very strong plea, and Judge Taylor after several remonstrances then stated that if they were not strictly honest in the future they would be re-arrested and sent to the penal institution. He allowed them to leave the court on suspended sentence.

DELEGATES CLAIM WELL RECEIVED

BORDEN AND MINISTERS GAVE HEARING SOON AS THEY ARRIVED IN OTTAWA SAY ALBANY.

To the Editor: Edmonton Daily Capital, City.

Dear Sir,—We read with considerable surprise and regret your editorial published in Wednesday's issue of the Daily Capital, referring to the reception by the Hon. B. L. Borden and his ministers of the mayor, Alderman Wood and Alderman McLennan, representing the city of Edmonton.

As members of that delegation, we cannot understand from what source you derived your information, as our reception at Ottawa was very normal indeed. The Prime Minister and his several ministers, as soon as it was known to them that we had arrived in the city, made specific appointments with us, which they kept to the letter. Premier Borden and the ministers exhibited the deepest interest in all matters brought before them affecting our city. We feel therefore, in justice to the premier and his ministers, and in order to remove any misunderstanding which might arise in the minds of our citizens, that the public explanation is forthcoming through the medium of your paper, and we trust you will give this reply to your readers due publicity.

Yours truly,
G. S. ARMSTRONG, Mayor.
J. W. MURPHY, Alderman.
H. L. MCLENNAN, Alderman.

TEMPERANCE MEETING.

Among the many efforts which are put forth to further the cause of temperance in the city, none is more deserving of patronage than the Protestant Sunday afternoon meetings which are held at 3.30 every Sunday afternoon in the Orphanum theatre, many of our leading and professional business men are among the speakers and good musical talent furnish the program.

The Rev. Jas. Coulter, pastor of Wesley Methodist church will give the address next Sunday.

Solo will be rendered by Miss Brown, Mrs. A. B. Patterson will recite, musical selection by the orchestra. The choir will be taken by Mr. G. A. Ayson. Collection will be taken to defray expenses.

PO-CA-RT A SUCCESS.
A large and enthusiastic audience gathered last evening in the auditorium of the Methodist church to enjoy the concert given under the auspices of the Alberta Musical Festival.

The Choral Society, the several choirs and every one of the artists who contributed to the program of the evening were accorded a hearty reception to which the response on several occasions was a highly enjoyable event.

MEDICOS ENDORSE PIGEON LAKE PLAN

ENDORSEMENT OF SCHEME HANDED TO FRANK GRAY AS RESULT OF EXCURSION.

As an outcome of the excursion which was run to Pigeon Lake a couple of weeks ago, the medical men of the city who accompanied the party have handed the following endorsement of the Pigeon Lake water scheme to Frank Gray.

We, the undersigned, medical practitioners of the city of Edmonton and Lethbridge being desirous of assisting the movement that is being made to procure for the city an adequate and continuous supply of pure water, hereby endorse the proposal to secure such supply by gravity from Pigeon Lake; and state that after having examined into the matter, we are of the opinion that such proposal should be at once adopted by the city.

We are further of the opinion that the health of the citizens is being seriously jeopardized by the present system of water supply, and that as population increases both in the city and in the country to the west of the city, the danger of the spread of disease and infection by the contamination of the source of the present water supply will make it a matter of complete impossibility to continue to use the same, without chemical treatment that would render the water unwholesome; and that therefore in the interest of public health no time should be lost in adopting the Pigeon Lake scheme.
